◦ SKILLS ◦

JavaScript

Typescript

Testing

Git

React.js

MongoDB

Node.js

Express.js

◦ HOBBIES ◦

Passionate about tabletop gaming, I enjoy the strategic challenges and social interactions that come with board games. I also find joy in the kitchen, where I create delicious cheesecakes. Additionally, I have a geeky side and enjoy building my own custom computers from scratch.

◦ LANGUAGES ◦

Catalan

Spanish

English

PERSON PROFILE

Full-stack developer trained at ISDI Coders, I've leveraged my problem-solving skills from aquaculture to software development with the MERN stack. Fluent in English and experienced in diverse teams, I eagerly anticipate contributing my unique perspective to a dynamic software development team.

EMPLOYMENT HISTORY

Full Stack developer, Barcelona

April 2023 — July 2023

- Developed Collectopia, a MERN (MongoDB, Express.js, React, Node.js) stack application where board game enthusiasts can maintain and manage their game collections. The application serves as a comprehensive CRUD system that adds, retrieves, updates, and deletes items in your game collection, making it a one-stop solution for all board game collection needs.

Veterinary pathologist at Ictiovet S.L, Barcelona

May 2016 — March 2023

- Conducting marine necropsies and implementing biosecurity protocols, I enhanced health management and yield in aquaculture. Furthermore, my expertise in disease control consultation and management of laboratory processes facilitated accurate disease identification and improved aquafarming practices.

EDUCATION

Full-Stack Developer, ISDI Coders, Barcelona

January 2023 — June 2023

At the ISDI Coders bootcamp, I delved into web development using MERN technologies (MongoDB, Express.js, React.js, Node.js), mastering the development of scalable web applications. My training covered building RESTful APIs, managing NoSQL databases, and crafting interactive interfaces with React.js. Beyond technology, I embraced core values like team collaboration, problem-solving, and adaptability within AGILE methodologies. This hands-on, challenging experience involved working on real-world projects, proving my capability to address practical challenges.

CFGS Web Application Development, IOC, Barcelona

September 2022 — Present

MSc Aquaculture, Universitat Autònoma de Barcelona, Barcelona

September 2014 — September 2015

Bachelor's Degree in Veterinary Science, Universitat Autònoma de Barcelona, Barcelona

September 2009 — September 2014
